

LIGNUM VITAE

WATER LUBRICATED BEARINGS

RELIABLE PERFORMANCE FOR WATER TREATMENT APPLICATIONS

Highest Ranked Environmentally Safe
NSF-61 Bearing

Benefits of the Material

- Self Lubricating
- Low Maintenance
- Clean or Dirty Water
- Low Friction
- High Shock Load
- High Edge Load
- Easy Installation
- Custom to Your Specs

Shaft Sizes and Bearing Useful Life

Lignum vitae bearings currently support shafts of any diameter.

Types of Bearings

- Shell
- Pillow Block
- Split
- Hanger
- Stave
- Horizontal
- Seals & Wear Pads

Services Available

- Value Engineering
- Reverse Engineering
- Manufacturing
- Hone & Lap Shaft in Place
- Installation & Supervision On-Site
- Immediate Delivery for Unplanned Outages
- Shaft & Bearing Assessment

Certified to
NSF/ANSI 61
